Palm Beach Gardens Recreation

New! Digital Photography Workshops

Age: 16 years and older

Discover the "art" of photography. Learn the difference between a good image and a great image through your own work. Students will be required to print out 2-3 images weekly for class critique based on home assignments. A copy fee of \$8.00 per session is payable at time of registration for those without home printers. Please bring samples of your best work to first class. Group display and discussion at end of each session. Students must provide their own camera.
